

App crash report - 2026-05-20

Steps to reproduce:

1. Open the app
2. Tap Settings
3. Tap Export data
4. Observe crash

Stack trace (Android logcat):

```
05-20 14:23:11.412 E/AndroidRuntime: FATAL EXCEPTION: main
    java.lang.NullPointerException: Attempt to invoke virtual method
        on a null object reference
    at com.example.ExportActivity.onClick(ExportActivity.java:127)
```

Expected: data exports as CSV to Downloads/

Actual: app crashes, no toast
